

Patient Information Diversity Database (PIDD) Statistics February 2012

Resources on the Patient Information Diversity Database

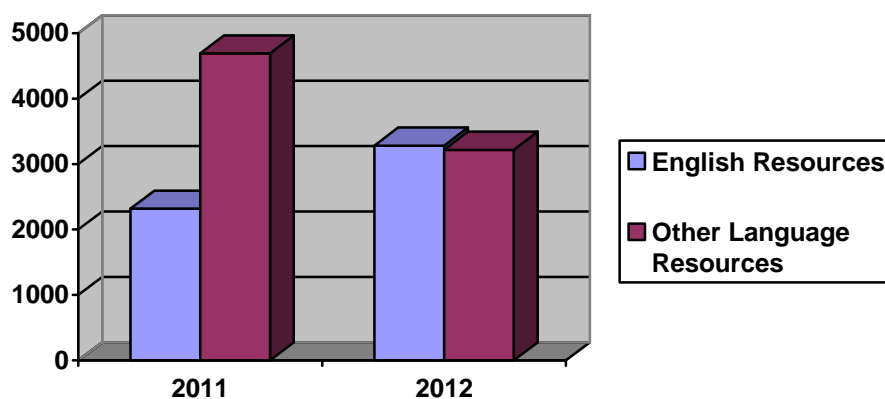

6,500 resources currently available on the PIDD, down from 7,009 available in January 2011.

| Breakdown of Formats available on PIDD | | | | | | | |
|--|-----|-------------|------------|---------------------------------------|-------|-------------|------------|
| Format | No. | +/- Prev Yr | % of total | Format | No. | +/- Prev Yr | % of total |
| Audio - cd / mp3 / online / tape etc. | 307 | (+53) | 4.7 | Easy Read / Learning Disabilities | 232 | (+68) | 3.6 |
| Book / Phrasebook | 45 | (+36) | 0.7 | Leaflet / Factsheet / Flyer / Booklet | 5,171 | (-620) | 79.6 |
| Braille / Large Print | 165 | (+5) | 2.5 | Form / Info Pack | 33 | (-65) | 0.5 |
| Cards - Business Cards, Dispensers & Postcards | 91 | (+4) | 1.4 | Poster | 144 | (+18) | 2.2 |
| CD-ROM | 10 | (+1) | 0.2 | Video - dvd / vhs / mp4 etc. | 87 | (+1) | 1.3 |
| Diagrams | 98 | (-9) | 1.5 | Website | 117 | (+1) | 1.8 |

Language resources available on the PID

3,282 Resources in English (50.5%), and 3,218 Resources in other languages.

This is major difference to January 2011 when, from a total of 7,009 resources available, 2,320 in English (33%), and 4,689 in other languages.

Some of the contributing factors are;

- a large increase in the number of English resources being added to the PIDD (Labtest Online, NHS Choices and Patient UK materials for example)
- a large number of translations being removed and not being updated or replaced by publishers.
- the loss of the website Multikulti which provided a wide range of information in approx 15 languages.

In January 2011, for every English booklet, leaflet, factsheet or flyer, there were approximately 2.9 versions in another language, this year that ratio has dropped to 1:1.2.
